Zombie Survival Hat Simulator! What more do you want? great deal for 5$ <3. It's an ok rail shooter, but you can run through the entire story campaign in less than an hour, and there's not much else to it.. I like both of the decks in here, I just don't think that everyone would. Both of these decks are slightly underwhelming. There are only two good cards to use in other decks IMO. Red resonator is a really good tuner and fiendish rino is used in many P.K fire decks.

Only buy if you like the decks or need the two good cards.. This game is fun and challenging to play. It's easy to get cought up in the game play. I can really catch some air when I use boost to climb or get around. Now I want to get a real burger!. This game is a bunch of fun just love it i wish there where more games like it.

It's a fun Platformer - Side Scroller shooter, like those retro style side scroller shooter games from Megaman and Metroid. Very fun game if you're bored or just want to kill some time.. This is for me to practice writing in English.
I apologize in advance if my grammar or English is not right :)

I am somehow addicted to this arcade feeling pizza making simulation! You can make your own pizza recipes and manage every aspect of the restaurant. Heck I made kfc combo pizza which is french fries and fried chicken on the top with heavy chedder (heart attack alert) or herbaholic pizza simply no cheese with bunch of different herbs for veg/vegans (sometimes customers who are veg/vegans do comeby and compliment about the no cheese pizza! How cool is that! I love how they respond to my changes even tho its ai). Also, the soundtrack is very catchy and companions that work with you greet you when you start the day and it makes you feel welcomed and part of something. Whenever I play this game I get hungry for pizza..This is like cook,serve,delicious game but it is more like I'm playing 8 bit style. I wish the characters have voice overs!. Gooooooooooooood. worth the wait. The clubs are cool and nicely creawted. The street view is also cool. Please fix the characters though!!! I think the characters should be dressed in 80's cloths and look more like they fit the era. The models are ugly and weird looking. Especially the dudes, WTF, they are so creepy. Everyone in this club is so creepy and strange. There is no avatar editor, which would be hella fun. You could see what your own avatar looks like in a mirror. Just like in RecRoom, but with way more options for hair, cloths, accessories, etc. Lastly, I will repeat the other comments and say that the characters need more interaction. It would be amazing to meet your friends in the 80s clubs, so please add the multiplayer option.
